GIVE YOUR CHILD – **A golden future**

Welcome to ISD Family

The ISD is unique in that they have evolved out of a philosophy, an idea. It began in 2016 with the awareness that the true meaning of education is yet to be discovered. ISD pioneered several educational child-friendly concepts ahead of time. Cognizant that the child today will apply his/her learning in a future that is 20 years away, ISD ensures our faculty is trained to nurture the minds and hearts of the developing child. Today, more than 6 years later, all of our innovations have found validation as our first batch has done much well as per our expectation. Innovation in education is no one's prerogative. Every child everywhere deserves a good education with caring and sensitive educators. We have been fortunate to have been able to serve and contribute to this field, and have generously shared our learning with the fraternity and the community. To be a part of ISD means to learn along with your child, to share your learning, and to move into the future with confidence and clarity. Our students excel in all fields, at all levels.

The child is at the heart of a school, giving it meaning and purpose. It is the education of today that will determine if the children of tomorrow will uphold and honor the most important human qualities of compassion, sensitivity and peaceful co-existence.. We pride ourselves in being an institution that provides holistic education for the all-round development of the child, with Excellence in Academics and Excellence in Behavior as our mission. We believe that the school's curriculum should be meaningful for the learner and suitable for real time application. I welcome you to **ISD**, a school where educators rededicate themselves every day to prepare lifelong learners!

Education is not a destination but a journey in itself that turns an entity into a human being which is the biggest need of the time. The core purpose of education is to provide children with a learning environment which brings out the best in them. We believe that every child is endowed with a unique set of attributes and abilities, which needs to be nurtured so that they blossom. Therefore, every child deserves an education that fosters academic excellence and all-round development, and ensures their well-being. Our curriculum has been especially designed to make it inclusive; where physical, emotional and mental needs are equally significant. Unlike the traditional method of teaching, where the focus is on the trainer, our approach is learner- centric. Various orientation workshops are held at regular intervals for teachers to absorb the vision, align with the values and take ownership for our mission and the curriculum.
